Section 13-03-09 PARKS AND GREENBELT SMOKING PROHIBITION

- A. Findings and Purpose.

Public health officials have concluded that secondhand tobacco smoke causes disease, including lung cancer and heart disease, in nonsmoking adults, as well as causing serious conditions such as asthma, respiratory infections, middle ear infections, and sudden infant death syndrome in children. The conclusions of public health officials concerning secondhand tobacco smoke are sufficient to warrant measures that prohibit smoking in places and facilities owned, operated, or managed by the Department of Parks and Recreation in order to protect the public health. Therefore the city of Boise City exercises the authority granted by Idaho Code, Sections 39-5511, 39-5713, 50-302, and 50-304. This Section shall be liberally construed so as to further its purposes of limiting the exposure of the public to tobacco products and smoke in Boise parks and on the Greenbelt.

- B. Smoking prohibited. Smoking is prohibited in any public park, as defined Boise City Code Section 13-03-01 M except for the areas specifically declared open to smoking within Ann Morrison Park, Julia Davis Park, and city owned golf courses by the Director.
1. Notice of the smoking prohibition in public parks shall be posted at or near each vehicular entrance or at or near each sidewalk or paved pathway into the park and along the Boise River Greenbelt at intervals of no less than every two miles.
 2. Notice of any areas approved by the Director for smoking within Ann Morrison Park Julia Davis Park, and city-owned golf courses shall be posted at or near each vehicular entrance or at or near each sidewalk or paved pathway into the park. The absence of such posted notices shall constitute evidence the Director has not approved any smoking areas within Ann Morrison Park, Julia Davis Park, and city owned golf courses and smoking is prohibited throughout the parks.
- C. Where smoking is not regulated. Notwithstanding any other provision of this chapter and section to the contrary, smoking in automobiles, whether in a parking lot or roadway, within a public park shall be exempt from the provisions of this ordinance. Additionally, bona fide Native American religious practices as set forth in Boise City Code Section 6-23-09 are exempt from this ordinance.
- D. Violations and penalties. A person who smokes in an area where smoking is prohibited by the provisions of this chapter shall be guilty of an infraction, punishable by a fine not exceeding \$50.00 as prescribed by the Idaho Infraction Rules for smoking in violation of the Idaho Indoor Clean Air Act.
- E. Enforcement. In addition to any law enforcement officer, any citizen who desires to complain about a violation of this chapter, for which the responding law enforcement officer concludes there is probable cause may initiate enforcement by requesting to sign a Uniform Citation as the complaining party and state's witness.
- F. Other applicable laws. This chapter shall not be interpreted or construed to permit smoking where it is otherwise restricted by other applicable laws.

(Ord 44-18, Amended 9/25/18; 6829, Enacted, 11/29/2011)

- B. Closed Areas. Any section or part of any park may be declared closed to the public by the Director at any time and for any interval of time, either temporarily or at regularly and stated intervals (daily or otherwise) and either entirely or merely for certain uses, as the Director shall find reasonably necessary.
- C. Effect of a Permit. Permittees shall be bound by all park rules and regulations and all applicable ordinances as fully as though the same were explicitly stated in said permit. The person or persons to whom a permit is issued shall be liable for any loss, damage or injuries sustained by any person or property by reason of the negligence of the person or persons to whom such permit

shall have been issued. The Director, or a duly authorized representative, shall have the authority to revoke a permit upon a finding of violation of any rule or ordinance, or upon good cause.
